Tracy Julian, Chair of the Family Law practice and Holmdel Office Managing Partner at Pashman Stein Walder Hayden, was quoted in the March 15 edition of the *Bell Works Block Bulletin*. For Women's History Month, the newsletter noted they "are highlighting some of the incredible women of the metroburbs [at Bell Works]" and featured Julian, who was recently named Managing Partner of the firm's Holmdel Office in Bell Works.

"While there are still pockets of male dominance in the legal profession, Pashman Stein breeds a culture where women are at the table and share a strong voice. My advice to other professional women is to never settle for less. Always embrace who you are and find the courage to speak what you believe. The right people will participate in the dialogue and the wrong people are irrelevant- respectfully move past them." -Tracy Julian
