NJ Senate and Assembly committees have now voted in favor of moving the personal use cannabis bills to full votes of the Legislature on Thursday December 17, 2020. If passed on Thursday, it is expected that Governor Murphy will sign the bill into law soon thereafter. A copy of the amended bill will be posted on our website as soon as it is made available.

According to the bill, the Cannabis Regulatory Commission will have 180 days to release its rules and then begin accepting applications for licensure.
